CROSSOUT - The Road to Apocalypse

In 2027 a mysterious viral epidemic known as the 'Crossout' swept the planet, countries and populations simultaneously began to fall at an alarming rate all over the Earth. Those who did not die in the first few days, were plagued by hallucinations and headaches, many people went mad, others and committed suicide. The source of the disease could not be detected but the cities that were once the vibrant social and economic beacons of humanity were left ravaged and deserted.

Survivors gradually began to change — after fifteen years of transformation, the changes became visible. The most noticeable metamorphosis occurred in the eyes of the affected — some began to glow, while others resembled black holes. To hide their unnatural looks and conceal the mutation, people started wearing padded clothing and sunglasses.

Twenty years have passed after 'Crossout'. Humans still remember their life before the disaster. As always, there are groups trying to recover the old world, while others enjoy the chaos and destruction. But there are those who are not human any more. They hide their faces behind masks, and their motives are unknown.

Horrible game, logged on today and all my gear aside from my armor and a few wheels was gone, wouldnt recommend this pay to win game. Would be fun but you need to grind or pay money to make anything cool. Just like any of this dev's games.. A (well, potentially) good game utterly decimated by ridiculous lag, that I have never seen in a game post dialup internet eras, even on AUS (local) servers. Want to correct your course by a smidge to avoid that wall? TO BAD, 90+deg turn off a cliff. Want to stop behind cover? TO BAD, server applied the brakes 2-3 seconds after you did, now your in the open getting blown up. Want to stay out of the limited fire angle of that cannon? no chance, your car is bouncing all over the f'ing joint like a puppy on a ice rink.

Great potential.\u2665\u2665\u2665\u2665\u2665game. DO NOT BUY.
