Purchasing Information

LVC Audio plugins can be purchased by using the buttons and shipping cost displayed on this page. All payment processing occurs through PayPal. After payment is received and processed, a registration file will be sent via email. The registration file includes the full version of the original software purchase.

LVC Audio does not make use of any third-party "social media" or computer ID schemes for registration. You are permitted to use purchased plugins on any number of computers that you own (with the caveat that multiple copies of the registered plugin will not be used concurrently). The registration file and activation will be sent to you within several hours after your transaction is completed with PayPal (typically within 15 minutes). Please visit the [Contact Us](#) page for any specific questions related to purchasing software.

Before Purchasing

Before purchasing any plugin, please download the demo or free version of the plugin and ensure that the plugin works properly on your specific operating system. Although each plugin has been thoroughly tested, the large number of third-party software and operating system versions make testing every one impossible. If you detect the plugin and have any issues please use the [Contact Us](#) form to report any issues. Due to the payment process and individually created registration files, refunds on purchases are not possible.

Bundle Pricing

LVC Audio currently offers three separate bundles: Mixing, Mastering, and Everything. Prices reflect an overall discount rate when compared to purchasing single plugins. For previous customers of LVC Audio that wish to "upgrade" from a previous plugin purchase to one of the bundles, please use the [Contact Us](#) page. As you previously purchased plugins and you want to get the 50% discount price for the Everything bundle, bundle prices include the same branding as single purchased plugins. As new plugins are created, previous customers will be offered the new discounted rate on any new plugin. So, purchasing the Everything bundle now does not entitle the user to every new plugin created by LVC Audio.

| Bundle | Plugins | Bundle Price* (USD Retail) | Buy |
|------------|--|-------------------------------|-----------------------------|
| Mixing | Liquidity (Liquidity 1-15) and Phasing (Black, Blue, Purple, Red, Tube, White) | \$290.00 | Add to Cart |
